

**Maintain
consistency, achieve
success . . . even with
expletives.**

BOOK DESCRIPTION

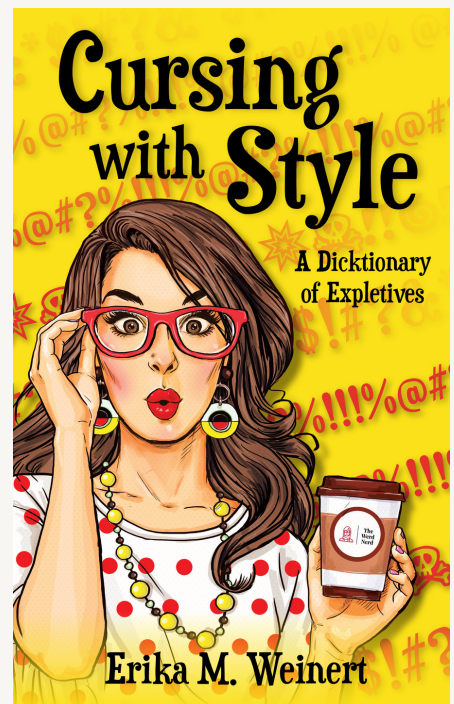

Cursing with Style was designed with both editors and their clients in mind. With over 100 entries, this swearsy resource will aid editors in keeping expletives like *craptastic* and *shitstorm* consistent throughout their clients' manuscripts. And their clients? Well, what if they could have peace of mind with every word that drips from their profane reservoir of creativity? When an editor queries the hyphen in *shit-ton*, writers can reply with confidence because *shit-ton* is in this kick-ass dictionary, and it's written by an editor.

INTERVIEW QUESTIONS

- What expletive do you use the most, personally and while editing?
- With so many books on cursing available, what makes yours different?
- Why do you say on page 121 that your mother will hate your book?

ERIKA M. WEINERT

is a US English copy and line editor with over ten years of experience in the industry, who is an active member of the Northwest Editors Guild, where she mentors fledgling editors. When she's not providing remote editing services to her clients and mentoring, Erika can be found at home with her husband, their daughter, and their two cats.
